【**2025 Quanta-MIT Technology Forum**】
Generating AI for Resilience Medicine
Invitation

Dear Distinguished Guests,

As one of the world's biggest computer system design and manufacturers, Quanta has always been committed to strengthening the development of precision health and smart medical care. Quanta's Chief Technology Officer, Dr. Ted Chang, is our ABAC member and also serves as the Vice Chair with focus on both artificial intelligence (AI) and digital health at ABAC's Bio & Healthcare Working Group (BHWG) this year. The emphasis is on leveraging technology, particularly AI, to improve healthcare in the Asia-Pacific region.

Quanta Computer, the Quanta Medical Technology Foundation and MIT Computer Science and Artificial Intelligence Laboratory(CSAIL) will be hosting the exclusive one-day forum (hybrid event) in Taipei on Wednesday, September 17th, 2025, to respond to the need to drive the adoption of digital health technology at scale. The forum will invite renowned speakers from MIT CSAIL, experts from hospitals, academic units, and public sectors to share distilled and advanced insights accelerate the sustainability transformation in the field of healthcare and medical technology. Dr. Barry Lam, Chairman of Quanta, will further deliver a talk on the progress and future plan of Quanta Computer in advancing AI technologies and applications related to digital health and smart medicine.

In recognition of your achievements and vision in the field of smart medicine, we sincerely invite you to join this forum for more professional knowledge and experience sharing with us. We believe that your insights on smart medicine and digital health will shed a light to this forum. It will be highly appreciated to learn your reply by September 1st (Monday).

【Forum Information】
